

MD MOHIDUL ISLAM

UI/UX DESIGNER

Hello, I'm passionate about crafting impactful ideas. I have been working for over 8 years with UI/UX Design. Specializing in UX strategy, research, and visual design, my focus on UX research allows me to create user-friendly products that align with user preferences.

EXPERIENCE

UI/UX Designer | [Dino Code LA](#)

Feb 2021 - Present • United States (Part-time Remote)

Dino Code LA specializes in creating custom digital solutions. They deliver user-centric websites and applications with innovative design and cutting-edge technology.

- I develop problem statements by reviewing existing websites, conducting user interviews, and consulting with stakeholders to understand business objectives. This method allows me to create user-centered designs.
- We are working closely with the development team to ensure that the site is built precisely according to the designs and excellent interactions.
- I have redesigned 5 websites with a mobile-first, modern, and user-friendly approach. This resulted in a 40% increase in user engagement, a 35% improvement in site performance, and a 25% increase in conversion rates..
- I am currently developing and maintaining a design system that helps us maintain consistent designs and speeds up the design and development process by roughly 50%.

UI/UX Designer | [VGC IT. Inc.](#)

Feb 2021 - Oct 2023 • United States (Part-time Remote)

VGCIT INC. a small business and disabled veteran business enterprise, offers IT solutions to government and private clients nationwide, with locations in LA, CA, and Dallas, TX.

- Crated UI Design for "PKIware" online certification web application.
- Worked with wire flow, prototyping and wireframing to visualize design concepts and user flows.
- Created interactions design that saved 50% of work time for developers.

Sr. UI Designer | [Najm Consultant](#)

Feb 2021 - Jan 2023 • Bangladesh (Part-time Remote)

Najm Consultant is helping small and mid-size companies grow their sales pipeline and revenue through performance-based marketing consulting.

- Redesigned diverse websites with a mobile-first approach some significant of them are Najmc, Zoomtechstreet, Binat-solutions, Minimallimited
- After Redesign: On average, a notable 30% reduction in bounce rate was observed with increased user engagement, higher CTR, and clear user preference for the newly implemented designs.

UI/UX Intern | [Just Creative Studio \(JCS\)](#)

Jan 2019 - Dec 2019 • Bangladesh (On Site)

- Assisted the senior design team in creating wireframes, prototypes, and user interfaces for web and mobile applications.
- Collaborated with UX designers to analyze user feedback and iteratively enhance design solutions.
- Acquired hands-on experience in the end-to-end design process, from ideation to final implementation.
